Hello Minister Chong and team,

Over the last 6 months or so, I have been contacting members of your shadow cabinet regarding the topic below, but none of them (so far) have even shown the courtesy of a response.

With your mandate, I feel this also falls under your watch. Have you or your team had any discussions with your US counterparts on an issue that is of concern within the US Senate?

Any response or information would be appreciated, thank you in advance.

Matt Melvin.

Subject: Will Canada be in communication with the US re: UAPTF report?

Hello Minister Bezan and team,

Over the last several years, the US gov't has confirmed that their military (Navy) has been encountering "aircraft" that outperform anything in the US inventory.

This is a compilation of just some of the compelling information that has come to light:

<https://drive.google.com/drive/folders/1wmlHTGbdRzqrwlHbk3z0ODqE2dzoDoAG>

The US gov't is taking this so seriously that they have formed a task force to investigate and report back less than 180 days from now.

The United States' Senate Intelligence Committee, through the report on the Intelligence Authorization Act for fiscal 2021, has given the Director of National Intelligence, in consultation with the Secretary of Defense, a mandate to submit a report on unidentified aerial phenomena (UAPs) within 180 days or the Act being signed into law.

Our inquiries to Canada's Department of National Defence as to whether our own government will be in communication with US counterparts on this topic remain unanswered.

As Defence Critic, will you bring this to the attention of the Minister of Defence and ask why Canada is seemingly ignoring such an important topic?
